

OVERSIGHT COMMITTEE

MICHELLE CATHCART

Chair

Michelle Cathcart has been Vice President of Transmission System Operations of Bonneville Power Administration since 2017, and is responsible for the operations of two control centers, operations planning, and training. Prior to that, she served as the director of Strategy and Organizational Performance at Peak Reliability, a reliability coordinator for the Western Interconnection. Before assuming that role, she oversaw Peak's real-time operations and training as the director of operations.

Prior to arriving at Peak, Ms. Cathcart served as the managing director of operations and market interface at the Western Electricity Coordinating Council (WECC). She spent the early part of her career at Madison Gas and Electric Co. where she led the Wisconsin utility's participation in the Midwest Independent System Operator and the Midwest Contingency Reserve Sharing Group.
